

Journal of

Geotechnical and Transportation

Engineering

ISSN: 2379-8769

eISSN: 2379-8777

Editors-in-Chief:

Dr. Mehrad Kamalzare, Rensselaer Polytechnic Institute, USA

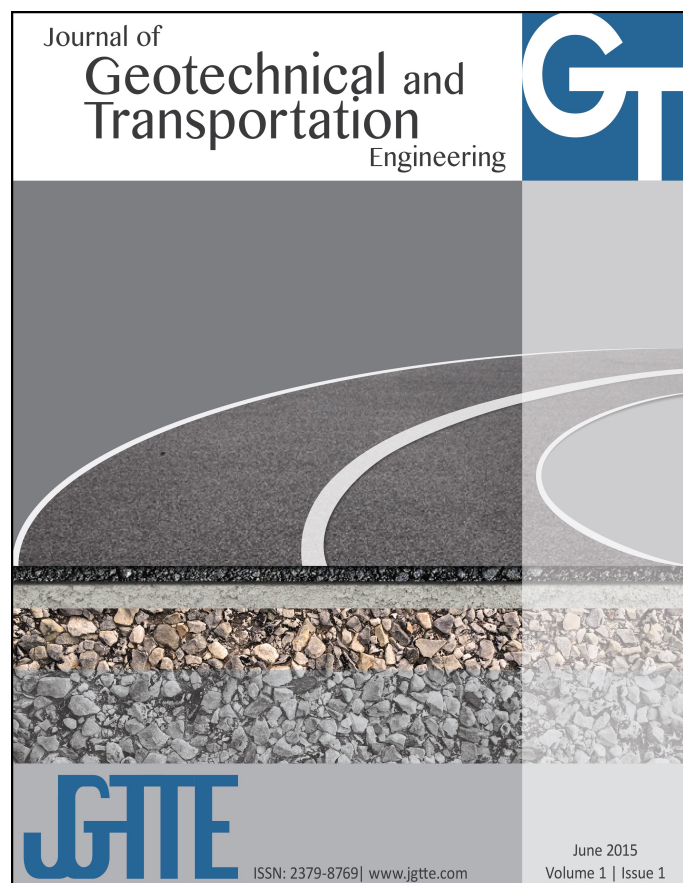

Dr. Hesam Shabaniverki, Lusofona University, Portugal

Aim and Scope:

JGTTE covers the broad areas of practice. The journal intends to provide a platform for publication of the high-quality research in common areas among the geotechnical and transportation engineering. JGTTE focuses on the papers that have applications in either of these fields, with emphasis on theoretical aspects. Authors are encouraged to submit papers on new and emerging topics within the general discipline of geotechnical and transportation engineering. Experimental papers are also welcomed, especially the ones with a clear and significant potential for practical application. Practice-oriented papers and case studies are particularly welcomed and encouraged.
